

#	LAA Priority	Nis/local PI's	Indicator RAG Status Q3	Overall RAG Status Q3	Notes
A World Class Environment					
1	Reduce quantities of municipal waste arising and landfilled (LAA1).	NI 193 "Percentage of municipal waste landfilled" **	Green	Green	
2	Improve the quantity, quality (clean, green and safe) and accessibility of public spaces and green infrastructure (LAA2).	LOCAL - % increase in satisfaction with parks and open spaces	Amber	Amber	Performance overall against the Delivery Plan remains on target. The continuing RAG status of Amber reflects the difficulties in resourcing this LAA Partnership in the absence of any funding.
3	Identification and prioritisation of, or improved understanding of the principal vulnerabilities in Devon to potential climate change impacts projected during the period covered by the Sustainable Community Strategy (LAA3).	LOCAL - Phase 1: Resource and Agree Approach – complete end 3rd Quarter 2009	Amber	Amber	The RAG status of this priority remains as amber. Progress is approximately 8 weeks behind the project schedule due to the scoping of services' weather impacts and the scheduling of interviews with heads of service taking longer than anticipated due to the summer holiday season and the lead time required to schedule meetings. This delay does not jeopardise the project and there is scope to regain this time during subsequent project stages.
		LOCAL - Phase 2: Risk Assessment & Priorities for Adaptive Action – complete end 1st Quarter 2010 (potentially level 2 for 2010 LAA Report)	Amber		
		LOCAL - Phase 3: Implement and Review Adaptation Response – end 1st Quarter 2011 (level 2 achieved by implementing priority actions only).	data not due		
4	Improve business productivity of the renewable energy sector in Devon (LAA4).	Growth in business productivity (GVA).	Red	Amber	As previously reported the current economic climate has had an impact on the RE sector and this is also being affected by some of the larger companies being bought by national organisations or moving out of Devon. This means that we are not even achieving the baseline turnover by employee and GVA figures, set on the basis of a regional report commissioned by RegenSW. There is also consolidation among the smaller SMEs in Devon. However, installations and RE4D Grants are continuing and carbon dioxide savings are ahead of our target. Combined turnover of those responding to our survey (36 orgs of a possible 64) is up £2.9m with jobs up 30%. RAG status remains at amber .
		Tonnes of CO2.	Green		
5	Reduce carbon dioxide emissions (LAA5).	NI 186 "Per capita reduction in CO2 emissions in the LA area" **	Green	Green	While the priority overall is flagged green, there are risks to delivery arising from resource issues in LAA4; LAA6, which contribute to performance under NI186.
6	Driving business competitiveness and reducing carbon emissions through public sector supply chains (LAA6).	Increased local productivity (GVA)	Green	Green	The RAG status remains unchanged, the majority of our targets are on track and look set to deliver their outcomes.
		Tonnes of business generated CO2 emissions	Green		

#	LAA Priority	Nis/local PI's	Indicator RAG Status Q3	Overall RAG Status Q3	Notes
8	Targeted conservation and enhancement of Devon's biodiversity and geology (LAA8).	NI 197 "Improved local biodiversity – proportion of local sites where positive conservation management has been or is being implemented" **	Green	Amber	The RAG status has changed from green to amber for quarter 3. Progress continues to be made with all targets, however funding needs to be sought including a minimum contribution of £3K from Districts along with a capital grants scheme for County Wildlife Sites.
12	Increase participation in cultural activities (LAA12)	Countywide Partnership established.	Amber	Amber	The status for this priority remains amber. Progress has been made over the last year in strengthening some existing thematic partnerships which will play a key part in feeding in to a new Devon Cultural Partnership. These include the new Team Devon 2012 and the creation of a culture stakeholders group for Devon's proposed Building Schools for the Future programme. Exeter University is also developing a new Culture and Arts Strategy. The DSP's ESSG has raised concerns on the lack of progress on the partnership but otherwise there has not been evident enthusiasm from other stakeholders for taking this forward. A number of factors have slowed down progress to date.
		Devon Cultural Infrastructure Strategy completed.	Amber	Amber	
33	Improve the energy performance of the housing stock and reduce fuel poverty (LAA33).	NI 187 "Tackling fuel poverty - % of people receiving income based benefits living in homes with a low energy efficiency rating" **	Amber - New data due April 2010	Amber - New data due April 2010	The reason for giving an amber status is that although positive progress is being made in terms of installation of measures being achieved, it is not known exactly what impact these improvements will make on the overall percentage of NI 187 performance indicator until a Devon wide house condition survey is completed in March 2011. This quarter a new website and scheme name was launched as Cosy Devon (in October). 2742 measures have been installed to date, helping approximately 2211 households in total. This quarter 500 measures were installed.
Strong and Inclusive Communities					

#	LAA Priority	Nis/local PI's	Indicator RAG Status Q3	Overall RAG Status Q3	Notes
9	Improve access to services and facilities through coordination of transport services and access to information technology, ensuring dignity and respect for all (LAA9).	NI 175 "Access to services and facilities" **	Green	Green	
15a	Work towards the economic inclusion and social integration of vulnerable populations (LAA15(a)).	Increase incomes for older people	Amber	Amber	Performance is rated amber because 4/10 targets have underperformed due to delays in developing the new Plough and Share Credit Union and due to lack of lending capital. The merger is now progressing to plan and will be completed during April.
		Children with special needs	Amber		
		Improved access to financial services	Green		
16	Promote active, empowered and influential communities (LAA16).	NI 4 " % of people who feel they can influence decisions in their locality" .*	Data not due	Green	The status of this priority has changed from amber to green for quarter 3. New data for the 2 NI's will not be available until a further survey has been carried out during 2010. Progress is being made to promote active, empowered and influential communities in Devon, together with the linked pieces of work to assist with the integration of migrant workers and the work to improve economic inclusion.
		NI 7 "Environment for a thriving third sector" .*	Data not due		
A Growing Economy					
14	Provide coordinated support to unlock the economic potential of Devon's most disadvantaged communities (LAA14).	LOCAL - Local performance indicators are being integrated into each of 4 Strategic Investment Frameworks (SIF)	Amber	Amber	The status of this priority remains amber. The development of the SIFs is on hold. Discussions have taken place to explore the value of combining the SIFs with the Community Infrastructure Frameworks (CIFs) produced by DCC's Strategic Planners in consultation with a range of partners. It is proposed that the SIFs will act as the short/medium term delivery plan for the CIFs and a timescale for their integration will be established. Development of the SIF highlighted the need for action to support town centres/ high streets in Devon. A pilot programme is currently in progress.
15b	Work towards the economic inclusion and social integration of vulnerable populations (LAA15(b)).	Numbers of community plans and social enterprises - range of indicators relating to the numbers of people involved, employment and income generated and the value of assets created.	Amber	Amber	Focus during the quarter 3 has been on establishing the details of the business support voucher scheme for assisting the growth of existing Social Enterprises and supporting the development of the Devon School for Social Entrepreneurs. Both proceeding as planned, although voucher scheme has been slightly delayed. As per the risk assessment, some momentum/co-ordination has been lost due to termination of meetings of the Devon Social Enterprise Group. Performance against proxy indicators is positive. The planned audit of social enterprise in the County has not yet been achieved due to difficulties with definitions and scope, but it is anticipated that progress will be reported in the next quarter.

#	LAA Priority	Nis/local PI's	Indicator RAG Status Q3	Overall RAG Status Q3	Notes
17	Develop and harness skills to achieve a competitive economy (LAA17).	NI 164 "Working age population qualified to at least level 3 or higher"*	Green	Green	The LPSA2 "reward grant" monies have been released and the planned partnership projects on adult skills can now progress. Data for 2009 NI164 due in October 2010.
18	Encourage the full adoption and exploitation of information and communication technology (ICT to improve productivity, social inclusion and environmental performance) (LAA18).	LOCAL - Devon ICT strategy finalised. Work starting on implementation of key priorities. Targets incorporated as part of this document.	Amber	Amber	The RAG status remains amber. Significant work has been undertaken during the last quarter on the background work to develop a joint bud into the RDA to secure funding to deliver pilot ICT technologies and appropriate governance models to secure the ongoing sustainability of ICT in rural areas. Actions to develop the WAN and connect up market towns are still progressing together with skills and website improvement support for SMEs.
19	Develop an innovation strategy and delivery network across Devon to achieve an economic uplift and increased GVA (LAA19).	LOCAL - DCC supporting and funding DCBC deliver EU Atlanti-Kis project to establish knowledge information systems and exchange best practice.	Amber	Amber	The RAG status remains amber. Actions have been delivered this quarter to support the development and growth of the knowledge economy across Devon. Further work is outlined to build on this progress for the next quarter.
20	To manage demand for travel in a sustainable manner and ensure expeditious movement by all transport modes, through the adequate provision and maintenance of transport infrastructure (LAA20).	LOCAL - Local bus journeys originating in the authority area	Green	Amber	The RAG status on this priority remains unchanged from quarter 2. The target for reduction in car journeys to school (NI 198) has not been met. The school census is not due until February 2010 when this data will be updated.
		LOCAL - Mode of travel to school: Percentage of pupils travelling to school by car (inc cars, vans & taxis)	Red		
21	Deliver major infrastructure improvement schemes which form part of the Regional Transport Strategy (LAA21).	LOCAL - Progress in the delivery of key regional transport priorities	Green	Green	
22	Ensure that Devon has an appropriate range of employment space (LAA22).	LOCAL - Strategy completed. Work underway to identify priority sites by district and highlighting top priorities for public intervention. Complementary report to be commissioned to analyse demand and possible locations for managed workspace and a possible roll out of the successful redundant buildings grant scheme.	Green	Green	The RAG status of this priority has improved from amber to green in quarter 3. Good progress is being made on developing a number of employment space projects including some strategic sites and rural projects. Managed workspace supply and demand study will identify options and investment plans for DCC's capital investment.

#	LAA Priority	Nis/local PI's	Indicator RAG Status Q3	Overall RAG Status Q3	Notes
24	Reduce the gap in benefit claims rates and employments rates between priority communities and the average for Devon (LAA24).	NI 146 "Adults with learning disabilities in employment" **	Data not due	Red/ Amber	Between May 2009 and October 2009 unemployment in the DCC area decreased month on month from 11,204 to 9,645, last month we saw a small increase to 9,837 but figures released today (20th Jan 2010) show a reduction again to 9,734. With the focus on youth unemployment, we can also report that after hitting a high of 3,690 unemployed young people between the ages of 18-24 in March 2009, this total has reduced to 3,035 in December 2009. The launch of the Backing Young Britain, the availability of the Future Jobs Fund (FJF) opportunities and the new guarantees for Young People is helping us to support long term unemployed young people into work.
		Working age out of work benefit claim rate in the 13 priority communities identified in the Devon Economic Strategy	Data not entered		The numbers of long-term unemployed people are significantly higher this year [2410 at 6 months; 885 at 12 months] compared to last year [1140 at 6 months: 320 at 12 months]. However, the numbers reaching 6 months of unemployment are decreasing from the high of 2750 In August 2009 but the numbers reaching 12 months of unemployment are still rising month on month. The deferred target for NI146 is currently being negotiated with GOSW.
25	Increase the productivity of the land based sector in Devon and improve conditions for farming and food sector businesses (LAA25).	Agriculture and forestry – gross value added	Green	Green	RAG status remains green in quarter 3. Current funding for the Devon Rural Network ends on 31st March 2010 and alternative arrangements for this outcome may need to be sort after this date.
Homes and Housing					
23	Increasing housing delivery , especially at strategically significant cities and towns and their associated new communities (LAA23).	NI 154 "Net additional homes provided	Red	Red	Partners have been negotiating a refreshed target for 2010/11.
26	Increasing the delivery of affordable housing (LAA26).	NI 155 "Number of affordable homes delivered (gross)	Red		Overall Affordable Housing Completions remain below target (RAG status of red) reflecting delays to housing on sites generating affordable housing through s106 agreements and the increasing importance of public funding to bring forward housing and unblock sites. It is important to note that targets were set at peak market and linked with draft RSS all housing completions target which were in themselves ambitious.

#	LAA Priority	Nis/local PI's	Indicator RAG Status Q3	Overall RAG Status Q3	Notes
		Local indicator: delivery of affordable housing in settlements under 3,000 population	Green	Red	The original baseline for completions prior to 2008/09 was 550 completions per year. With 675 completions in 2008/09 this means there has been an increase of about 22% in absolute numbers of completions over the 2 years with an average of 673 completions for each of the two years. We anticipate a programme of approximately 750 completions in 2010/11, subject to funding. A significant risk to 2010/11 is the availability of public funds through the Homes and Community Agency. Partners have been negotiating a refreshed target for 2010/11.
27	Improve housing options for the homeless and vulnerable clients (LAA27).	1. LOCAL - Number of private rented sector moves facilitated by Devon authorities	Green	Amber	Following the recruitment of the Enhanced Housing Options Coordinator in September 2009 this project is now underway. This is a 2 year post and the post holder will undertake a feasibility study into a Devon wide social letting agency and from the recommendations borne out lead on the development, coordination and implementation of one or more sub regional social lettings agencies.
		2. LOCAL - Number of statutory homelessness acceptances for 16-17years olds and 18-21 year old care leavers	Green		The target has been revised for the number of statutory homeless acceptances in light of the House of Lords handing down judgement in the case of R (G) v London Borough of Southwark on the 20 May 2009 to include young people accommodated by C&YPS and now reads: 'A 25% reduction in the number of statutory homelessness acceptances for 16/17 year olds and the number of 16/17 year olds accommodated by C&YPS'.
		3. LOCAL - Improving multi-agency working in relation to clients with complex needs			This project has been subsumed into other work streams
		4. LOCAL - The separation of support from sheltered housing tenancies	Red/Amber		The separation of support from sheltered housing tenancies has a number of local indicators and all have a target to achieve 100% of services by April 2011. Performance to date is 9% of sheltered services have a support agreement which is separate to the tenancy agreement (same as last period) 0% of sheltered services are provided as floating support (same as last period) and 74% of services are operating with a mobile warden (3% less than last period). It is worth noting that: <ul style="list-style-type: none"> • The compliance rate for submissions was high this period; 93% of providers made a return, which represented 98%of the total services. (Compliance was low at 48% last quarter). • 73% of services who submitted a return have indicated a date from when they intend to separate the tenancy from the support service agreement. (This is slightly less than the 89% who reported a date last quarter). • Only 10% of services indicated that the date would be after 31st March 2011. (This figure stood at 7% last quarter.)
		5. LOCAL - Introduction of a common Choice Based Letting Scheme across Devon	Amber		The project has partly been implemented. Council and housing association homes in five Devon local authorities are now being advertised through Devon Home Choice. The remaining local authorities are planned to go live in January / February.

#	LAA Priority	Nis/local PI's	Indicator RAG Status Q3	Overall RAG Status Q3	Notes
Inspiring Young People					
29	Narrow the gap between the lowest attaining 20% and the most vulnerable and the rest by improving their rate of progress and raising their levels of achievement (LAA29).	NI 54 "Services for disabled children		Red	The 2009-10 survey shows a 2% improvement since the previous year. Performance in councils is tightly grouped with the Devon performance only 1% less than the top quartile threshold nationally. The deferred target is in the process of being set as a local target.
		NI 63 "Stability of placements of looked after children: length of placement".*	Well below target		The effect of the Southwark judgement and Baby Peter is increasing the number of referrals significantly, putting great strain on capacity and affecting this indicator. A small decline from 2008/09 outturn of 61.7% to 59.7% occurred for 2009/10 Quarter 1 and then a further small decline to 59.6% in 2009/10 quarter 2, Quarter 3 2009/10 data is not yet available. We remain well short of our stretching LAA targets. Action plans to address this are in place and under constant review, however long-term placement stability remains a challenge.
		NI 112 "Change in under 18 conception rate	2007 Well below target		2008 data is due on 25 February 2010 from the Hub. The 2008 target to reduce the under 18 conception rate to -29% of the 1998 baseline needs the actual conception rate needs to be reduced to -23.3%. The latest available data from 2007 indicates that a reduction of -1.4% has been achieved, well below target.
		NI 92 "Narrowing the gap between the lowest achieving 20% in the Early Years Foundation Stage Profile and the rest" STATUTORY	2008/09 Well below target		The 2008/09 outturn of 34% is an improvement on the 2007/08 outturn of 35.2% but still well below the target of 31.6%. Compared with all Council's in England this is below the mid point of 33.6% and similarly below the mid point for all County Councils of 32.1%.
		NI 72 "Achievement of at least 78 points across the Early Years Foundation Stage with at least 6 in each of the scales in Personal Social and Emotional Development and Communication, Language and Literacy" STATUTORY	2008/09 Below target		The outturn for 2008/09 was 47.0% which is an improvement on the 43.0% achieved in 2007/08 and nearer the target of 48.0% for July 2009. Compared with all England Councils this is below the mid point of 49%.
		NI 73 "Achievement at level 4 or above in both English and Maths at Key Stage 2" STATUTORY	2008/09 Well below target		The outturn for 2008/09 was 73.0%, the same outturn as that for 2007/08, both still below the July 2009 target of 81.0%. Compared with all England Councils the 2008/09 outturn is above the mid point of 72.0% and on a par with the mid point for all County Councils at 73.0%.
		NI 93 "Progression by 2 levels in English between Key Stage 1 and Key Stage 2" STATUTORY	2008/09 Data not due		2008/9 data is due in December 2010 from the Hub.

#	LAA Priority	Nis/local PI's	Indicator RAG Status Q3	Overall RAG Status Q3	Notes
		NI 94 "Progression by 2 levels in Maths between Key Stage 1 and Key Stage 2" STATUTORY	2008/09 Data not due		2008/9 data is due in December 2010 from the Hub.
		NI 75 "Achievement of 5 or more A*-C grades at GCSE or equivalent including English and Maths" STATUTORY	2008/09 Well below target		The 2008-9 outturn of 51.8% shows an increase on the 2007/08 outturn of 49.5% and is compared with all Councils in England this is above the mid point of 49.7% but below the mid point for all County Councils of 52.1%. However this is still well below the target of 55.0% for 2008/09.
		NI 87 "Secondary school persistent absence rate" STATUTORY	2008/09 Well above target		2009/10 data due October 2010
		NI 99 "Children in care reaching level 4 in English at Key Stage 2" STATUTORY	2009/10 Above target		
		NI 100 "Children in care reaching level 4 in Maths at Key Stage 2" STATUTORY	2009/10 Above target		
		NI 101 "Children in care achieving 5 A*-C GCSEs (or equivalent) at Key Stage 4 (including English and Maths)" STATUTORY	2009/10 Well below target		The 2009/10 outturn of 6.2% is a decline from 10.4% in 2008/09 and well short of our stretching 14.5% target. The reporting group is extremely small, so outturns can be subject to significant swings between reporting years.
		NI 117 "16 to 18 year olds who are not in education, employment or training (NEET)"	2008/09 Well below target		Devon is doing well to hold its own here but there are two concerns: -The full effect is not yet seen in terms of reducing opportunities -The long term effect on the whole lives of young people who are affected by this is well documented and is appropriate territory for the Devon Strategic Partnership thinking decades ahead. 2009/10 data due end Jan 2010.
Health and Wellbeing					
10	Promote independence (LAA10). Community Mentoring - AMBER Rapid Response - RED Telecare - GREEN Remas - GREEN Personalisation - AMBER	NI 125 "Achieving independence for older people through rehabilitation/intermediate care"	No target	No target	Negotiations are underway with GOSW to agree this as a "designated" performance indicator, with a likely target of 82.1% for 2010/11.
		LOCAL - NI 30 - Social care clients receiving self directed support per 100,000 population.	Red		This NI has a new definition. The delivery plan within the Putting People First Programme will improve performance on this indicator by shifting the emphasis of service provision towards self directed support.

#	LAA Priority	Nis/local PI's	Indicator RAG Status Q3	Overall RAG Status Q3	Notes
		NI132 "Timeliness of social care assessment (all adults)"**	Red	Red	A revised care pathway for Older People and Physical Disability Services was introduced in June 2008, which has significantly improved access arrangements and efficiency / effectiveness of business processes. There has been a 29% increase in the total number of people assessed per month, and a 28% increase in the number of people receiving an assessment in a timely way. Performance for NI 132 has remained relatively static because these increases have off-set each other. Operational improvement plans have been implemented and recent performance has improved to 80%, although this will not be immediately apparent through NI 132 as it measures performance across a 12 month period.
		NI 134 "The number of emergency bed days per head of weighted population"**	Red	Red	Quarter 3 figures report the level of emergency bed days at 363,390, 4% more than the target figure of 347,936.
11	Improve support and services for carers and users (LAA11).	NI 135 "Carers receiving needs assessment or review and a specific carer's service, or advice and information"**	Green	Green	There has been a significant improvement in performance for NI135, from 24.79% in August 2009 to 38.73% in December 2009 as a result of targeted improvement work. The Devon Carers Strategy has now been signed off and multi-agency programme board arrangements are in place to take delivery forward. Work has been done to further understand under-performance, which has enabled service user divisions to target improvement work. The focus for quarter 4 will be on delivery.
13	Maintain and increase levels of physical activity and sport (LAA13).	NI 8 "Adult participation in sport and active recreation"	Green	Green	The priority status has changed from Amber to Green for quarter 3. Data for the 2008/09 NI8 survey shows a slight decrease to 24.4% on 2007/08 figure of 24.6%, however the target has still been met.
		LOCAL - "Closing the Gap" Active Children and Young People in Devon	Amber		
30	Promote health and reduce health inequalities (LAA30).	NI 120 "All-age all cause mortality rate"**	Red	Amber	For the overarching indicator NI 120 All Age All Cause Mortality rates for 2008 are well below national and regional averages, although the rate of decline has been slower for females, with rates actually rising between 2007 and 2008. The decline in rates over the last 10 years (98 to 08) was 26% for males and 15% for females. Inequalities persist and are particularly acute for respiratory and circulatory diseases, especially for females. To address this situation new locality Health Improvement Plans are being produced which will set out disaggregated targets and priority actions for key conditions, risk factors and wider determinants of health. The four Heads of Health Improvement will be responsible for ensuring that these plans are endorsed by the District level Local Strategic Partnership and the Locality Commissioning Boards within NHS Devon.
		LOCAL - NI 53 "Prevalence of breast-feeding at 6-8 weeks from birth"	Red		
		NI 56 "Obesity in primary school age children in Year 6"	Green		

#	LAA Priority	Nis/local PI's	Indicator RAG Status Q3	Overall RAG Status Q3	Notes
31	Reduction in human costs, lost output and costs to services resulting from road collisions . (LAA31)	LOCAL - Costs associated with road traffic injuries in Devon (indexed) 1994-8 average for deaths and serious injuries and 2003-5 average for slight injuries	Green	Green	The status for this priority remains green. End year (provisional) outcome data shows achievement far in excess of that predicted. The cost of prevention of collisions was around £43m less than the target. Factors external to the local Devon programme have no doubt played a significant part, such as the price of fuel influencing journeys made and speeds. Numbers of deaths and serious injuries in 2009 are the lowest on record for Devon, and the enhanced road safety programme in conjunction with partners may be assumed to have had a significant affect.
A Safer Devon					
28	Ensure that the people of Devon feel and are safe from harm (LAA28).	LOCAL - Percentage of people who feel safe in their local area after dark	Data not due	Green	
		LOCAL - Percentage of people who feel safe in their local area during the day	Data not due		
		LOCAL - Number of Safeguard Adults Alerts	Amber		
32	Reduce the harm caused by alcohol and drugs (LAA32).	NI 20 "Assault with injury crime rate" **	Green	Green	Data for quarter 3 2009/10 not yet available.
		NI 39 "Rate of hospital admissions per 100,000 for alcohol related harm" **	Green		
34	Reduce antisocial behaviour (LAA34).	LOCAL - Percentage of people who agree that the police and the local council are dealing with anti-social behaviour and crime that matter in this area	Green	Green	Local targets for this priority are currently being revised.
35	Reduce the social, emotional and cost impacts on victims and on wider society by tackling the causes, and ameliorating the effects, of prejudice and hate crime (LAA35).	LOCAL - Number of reports of hate crime and incidents.	Green	Green	
		LOCAL - Level of satisfaction of victims of hate crime incidents with the overall service provided by the police.	Latest figures not available		
36	Reduce the social, emotional and costs impacts on victims and the wider society by tackling domestic violence and abuse (LAA36).	NI 32 "Repeat incidents of domestic violence" **	Green	Green	Further improvement made since the last report which showed 17.33% which is now 14.62% from April -Dec 2009 against a target of 28% for 2009/10 (where a lower figure reflects good performance). Nine months of data are beginning to indicate a levelling out of figures.

#	LAA Priority	Nis/local PI's	Indicator RAG Status Q3	Overall RAG Status Q3	Notes
37	Tackle the most harmful offending behaviour (LAA37).	NI 16 "Serious acquisitive crime rate"*	Green	Green	
		NI 30 "Re-offending rate of prolific and priority offenders"*	Green		
38	Reduce youth offending (LAA38).	NI 111 "First time entrants to the Youth Justice System aged 10-17"*	Green	Green
